

Panelised Room-in-Roof Solutions for the new build residential sector

RoofSpace I-Roof™ - The Complete Roofing Solution

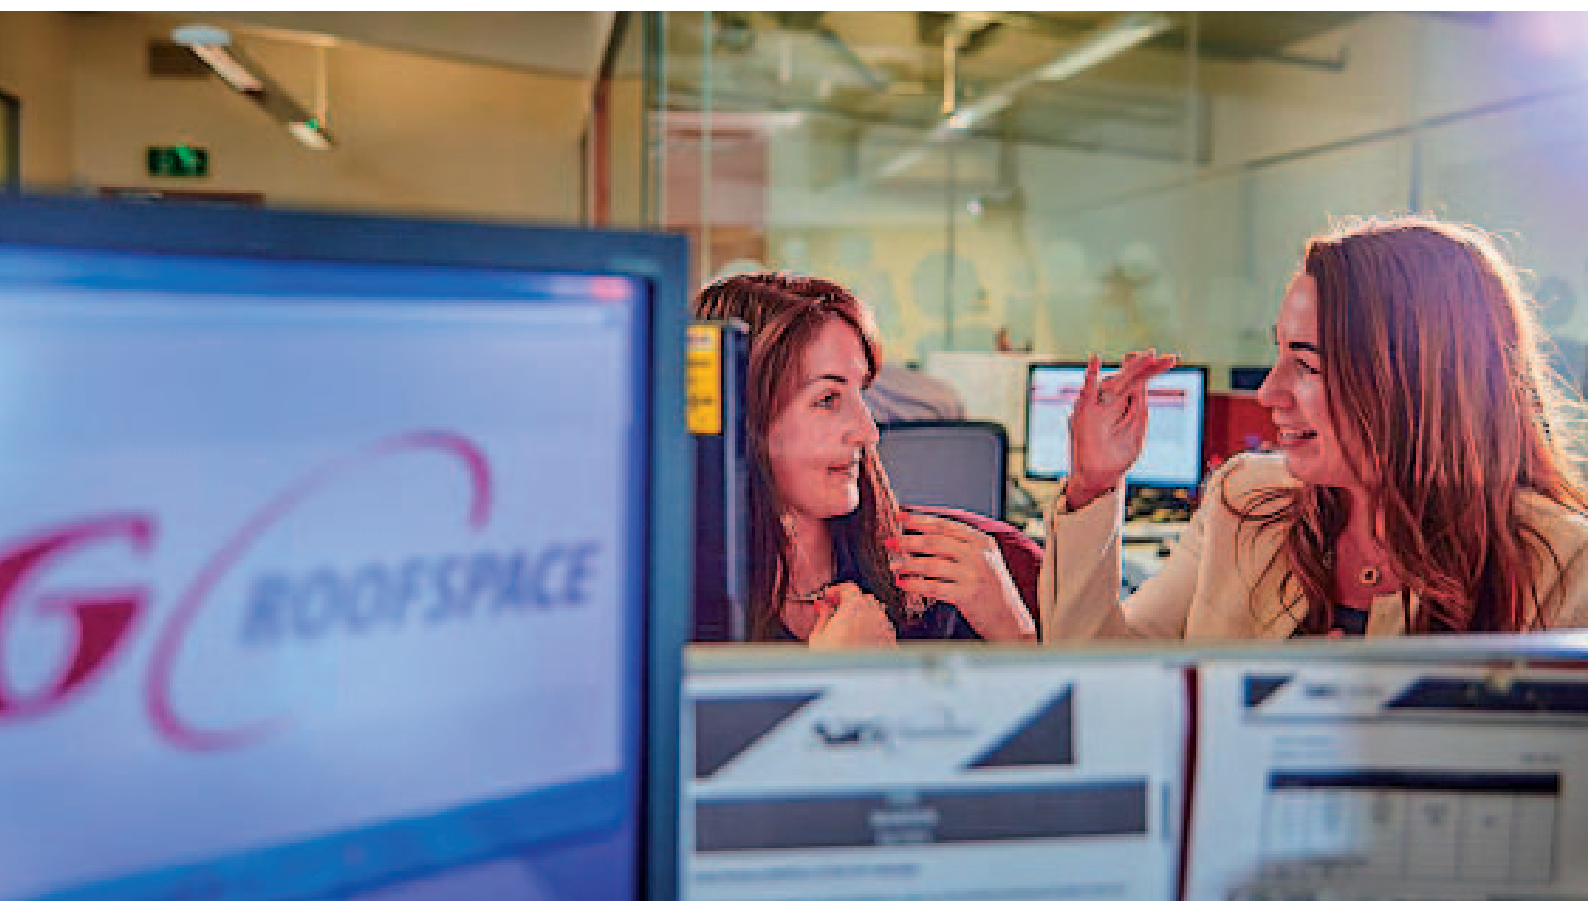

Panelised Room-in-Roof Solutions for the new build residential sector

The RoofSpace Process:

- From wallplate to completed roof
- Cost neutral compared against traditional construction
- Saves 3–4 weeks on the build programme
- Manufactured off-site, in a factory controlled environment
- One contractor providing national coverage
- Major health and safety benefits
- Quality managed from design, manufacture, installation and support
- Robust detail approved system
- NHBC Approved System
- BM Trada accredited Q mark product
